History

THIS SCHOOL is the outgrowth of the Brevard Epworth School, started in 1895 by Rev. Fitch Taylor, and aided by the Leagues and Sunday Schools of the Western North Carolina Conference of the M. E. Church, South. The school and the conference suffered a great loss when Mr. Taylor died in Brevard, March 16, 1909. His life was a benediction to all who knew him.

Owing to the lack of sufficient financial support, Mr. Taylor ran his school under disadvantages. The enterprise was finally suspended and remained dormant for two years. The Board of Trustees at last offered to finish and furnish the school building and to turn the property over to the Woman's Home Mission Society of the same church. The proposal was accepted, and the enterprise passed into the hands of the women in June, 1903, E. E. Bishop being made principal. On October 20th, school was opened with an enrollment of fifty students, two of whom were boarders. The house was enlarged the second year to accommodate increased patronage, and the school grew steadily year by year.

In 1907 the Woman's Board needed the services of Mr. Bishop to put on foot their Vashti Home. Mr. C. H. Trowbridge was selected to take his place and served faithfully and efficiently until 1923, when he resigned and was elected President of Weaver College.

Purpose of The School

BREVARD INSTITUTE'S purpose is clear-cut. It strives to supply the educational needs of certain definite classes of young people.

1. **Those who do not expect to attend College.** This includes high school graduates who desire brief technical courses to fit them for their life work, and also pupils who prefer vocational high school work to the classical branches still offered in most schools.

2. **Young people who find it necessary to secure remunerative employment very soon.** Such pupils can here acquire skill in some favorite department, and thus avoid the drudgery of the untrained.

3. **To many young people a change of environment is valuable.** Sometimes the only chance a girl has to see new scenes and different people is during her school days, and the broadening influence of a boarding school is inestimable. Sometimes the local associations are not the best, and a few months of school give a child a new vision of life.

4. **Some pupils do not have good educational advantages at home.** Most public schools are doing excellent work, but some are not yet on their feet, and pupils cannot wait for their development.

5. **Many people are unable to pay the actual cost of a boarding school education, and must have some such help as Brevard Institute affords.** Our exceedingly low rates provide an opportunity for every church, society, or individual to develop some worthy girl of the community for a life of usefulness and honor.

We endeavor to give the best educational advantages at less than the usual and actual cost. We do not take pupils with bad characters or habits; we cannot take those in poor health. Our mission is to that large and most respectable and sensible class who, though unable to pay the usual boarding school expenses, are nevertheless eager for an education, that their lives may be happier and more useful.

TRAINING FOR CHRISTIAN WORKERS

Brevard Institute is owned and operated by the Woman's Missionary Council of the Methodist Episcopal Church, South. It has also received large benefactions from the Western North Carolina Conference of the same Church, and feels keenly its responsibility to both organizations. It feels that the church universal has the right to expect returns in the form of Christian young people with at least some degree of training for aggressive church work. Consequently it makes Bible training a part of its regular course of study, and encourages practice in many forms of Christian leadership. This includes Epworth League work, Sunday School work, leading prayer meetings, singing and playing hymns, etc. At the same time it impresses con-

FANNIE ROSS DORMITORY FOR BOYS

stantly upon all students that these activities are in themselves only external, and the real Christianity manifests itself in consistent living, in straightforwardness, and in usefulness.

ADVANTAGES

Brevard, N. C., is in the famous health region near Asheville, and is called "The Gate to the Sapphire Country." The Institute occupies one hundred and eight acres of land in and adjoining the corporate limits of the town. On this property are Spencer Hall, containing accommodations for the literary and vocational departments; Taylor Hall, which is a girls' dormitory; nine frame cottages, occupied by teachers and girls; a large barn, and other buildings. Spencer Hall is new and well equipped for the varied activities which it houses. An excellent dormitory for boys was erected in 1922. A handsome dormitory for girls is now under construction and will be ready for occupancy at the time school opens. The entire plant is lighted by electricity, and connected with the city sewer and water systems.

DIVERSIONS

Keeping in mind the pedagogical fact that education should train the entire being, and not the intellect only, Brevard Institute students are encouraged to participate in literary society work and in athletics, to take part in mountain climbs, to use liberally the library table and reading table, and to attend the lyceum course. Grafonola lectures to train musical taste are given frequently. A good moving picture machine was installed in 1921, and it is frequently used. A Radio with a loud speaker was installed in San Angelo Chapel during March of the past school year. Students meet occasionally in receptions and parties, supervised by teachers.

There are four literary societies, the Adelphian, the Lanier, the Taylor, and the Ross. Each student is expected to become a member of one of these societies, as a considerable part of school life is connected with them. Each society will be expected to give, at least once each term, a program which will be open to the public.

For outdoor sports, the students play basket ball, baseball, tennis, etc. Occasionally hikes are taken to some of the nearby waterfalls or mountain peaks.

LIBRARY AND READING TABLE

The library consists of about twelve hundred volumes. It contains several reference works, among them being the Standard Dictionary; Bible Dictionary and Encyclopedia; such encyclopedias as Hill, Johnson, the Britannica, Household Economics, and the Nelson Loose-Leaf; also Redpath's History of the World, and about eleven hundred volumes of our choicest standard literature.

The reading table contains several of our best weekly and monthly periodicals, such as Delineator, Youth's Companion, Christian Herald, Ladies' Home Journal, Literary Digest, Century, Review of Reviews, etc.

EXPENSES

All students in the boarding department are required to pay the Campus Fee, the Matriculation Fee, the Incidental Fee, and the Culture Course Fee. Girls are required to buy a uniform, and during their first year all students are required to take an introductory course in carpentry, sewing, or cooking. All necessary school fees amount to \$152.80, from which discounts amounting to \$2.79 can be deducted for payments for twelve weeks at a time in advance. The Matriculation Fee of two dollars must be paid when application for admission is accepted. It will be returned if, for any satisfactory reason, the application is withdrawn before August 15, 1925.

The Campus Fee includes the cost of food, academic tuition, medical attention of school physician for ordinary sickness, bedding, light, furnished rooms, and free use of laundry and ironing room. Bedrooms are supplied with sheets, pillow cases, and towels. Students furnish their own soap, comb, brushes, clothespins, starch, bluing, etc. Girls do their own laundry work. Most boys are able to find sufficient extra work to pay for their washing. Each student is requested to furnish a drinking glass, a tea spoon and a table knife, which are to be kept in his or her room for individual use.

By doing extra work, industrious pupils can reduce their fees to \$100 or lower after they become familiar with the Institute methods. This is extremely low, considering the expensive nature of the vocational training offered by the Institute. There are a few scholarships, or partial scholarships, available for students, but usually these are assigned to those whose worth has already been demonstrated by residence on the campus.

Extra fees of a moderate nature are charged those who study expression, music, commercial branches and all those who do laboratory work in science, printing, photography, etc.

A course of lyceum lectures and entertainments is arranged for each year, and all students are required to attend unless specially excused. The total cost to each student will not be more than \$2.00 for the entire course. The money invested in this training probably brings in as large returns in culture and broad-mindedness as any similar part of the fees.

Since the school is operated without any margin for bad accounts and solely for benevolent purposes, it cannot run on the credit system. All expenses are payable in advance as follows:

Campus Fee, Board and Academic Tuition, per month . . .	\$16.00
Enrollment Fee, Academic Tuition alone, per month	3.00
Bookkeeping, per month	3.00
Mus'c, either Instrumental or Vocal, per month	3.00

1. Sample Sewing (required of all girls in the boarding department) can be completed in three or four months, one period per day. It consists of practice in plain sewing as follows: The running, back, half-back, combination, and catch stitches, feather, blanket and hemstitching, hemmed and overhand patching, the stocking darn and darn for cloth, button holes, tucking, gathering, seaming, felling, matching stripes, sewing on hooks and eyes, buttons, tape and mitering of corners.

All girls expecting to take sewing must have the following equipment: Scissors, needles, pins, thimble, tape measure.

All girls in the cooking classes will be required to have white aprons and caps which may be purchased after they arrive.

DEPARTMENTS

In addition to the literary work preparatory to college entrance, the Institute offers well developed courses for teachers, for bookkeepers and stenographers, for piano players and singers, for dressmakers and milliners, for housekeepers and cooks, and for agriculturists. Special classes may be organized in expression, carpentry, photography, printing, electricity, dairying, etc., provided enough apply for the work to justify the organization of the class.

INDUSTRIAL SYSTEM

As far as possible all the work in the buildings and about the place is done by students under the direction of the teachers. This reduces expenses provides exercise and relief from study, teaches the best way of doing everyday tasks, inculcates promptness and system, and dignifies labor. It develops the mental power of doing as well as thinking, and thus prepares in the only true way for life as it is.

Each student is expected to do some duty work for which he receives no reduction in expenses. This amount required will not be more than ten hours per week. Additional work will be credited to the student's account, or paid in cash.

DRESS FOR GIRLS

The girls are required to wear the uniform to church, Sunday School, and all other public occasions. It is supposed to be their best dress and is therefore made of good material.

The uniform consists of a plain black soft felt hat; plain black coat suit; shirtwaist, a good quality of plain white cloth, made plain with long sleeves; black shoes, large and strong enough to stand daily exercise, walks, and mountain picnics.

A simple white shirtwaist suit is sometimes considered uniform at commencement time. It consists of the uniform shirtwaist mentioned above, and a plain white skirt.

The coat suit, hat and shirtwaist for the uniform are kept in stock by one of our local merchants, and will be purchased at a moderate price after the student reaches school.

For cold or damp weather a heavy black coat is needed in addition to the coat suit, but may be used in place of the raincoat mentioned below.

The underwear should be of medium weight woolen or flannel.

As fresh air is as necessary in rainy weather as at other times, each girl must have overshoes and an umbrella. A rain coat is also very desirable.

When girls are not already supplied with daily wear, we suggest plain gingham dresses. Each girl should bring at least two work aprons.

All uniforms and clothing will be subject to inspection.

Silk and fancy dresses are not worn.

General Regulation

1. Girls over thirteen years of age, and boys over fourteen, of good health and good character, may be received as boarding pupils. Girls under this age can be admitted at an additional charge of \$2.50 per month.
2. Those desiring to enter school should fill out application blank and return to the superintendent.
3. Credits from other schools are accepted at the Superintendent's discretion. Wherever possible, new pupils should bring with them reports from previous teachers.
4. Parents wishing their children to leave the Institute at any time other than the beginning of the Christmas vacation or the close of the year in May must notify the superintendent directly, not through the pupil. Such notice must reach the superintendent at least one week before the absence desired, so that the superintendent may communicate with the parents, if necessary, before the request is granted.
5. A uniform is required to be worn to church and Sunday School, and on public occasions in school or elsewhere.
6. No boarding student will be exempt from church or Sunday School attendance, industrial duties, or daily exercises. All girls do their own laundry work.
7. Girls in the dormitory cannot receive visits or mail from young men except when their parents send to the superintendent written permission for them to do so. All communication with young men must be with the knowledge and consent of both parents and superintendent. No form of written communication with boys or men in or near the school is permitted.
8. No boarding pupil is allowed to leave the Institute property at any time without permission from the responsible supervisor. Flagrant violation of this regulation automatically expels the offender.
9. Day pupils are required to be prompt and regular in attendance and not to loiter on the street or in the stores after seven o'clock on any evening just preceding a school day.
10. Boarding students are not expected to visit home or friends oftener than once in six weeks.
11. In case of expulsion for improper or immoral conduct, money cannot be refunded, as unruly students are expensive at any price and are not wanted. Pupils knowing themselves to be impure, dishonest, or immoral are advised not to come here.
12. Students must pay full value for damage done to property. The cost of breakage in bedrooms must be paid by the occupants equally in cases where the blame cannot be definitely located.
13. The Institute cannot advance money or school supplies, but parents may make deposit with the cashier to be used as needed. Students must not borrow money or clothing from each other.

14. If a student is compelled to be absent for two weeks or more in succession, time will be extended into next semester, if cause of absence is promptly reported to the principal and approved by him.

15. Tuition fees and board are payable on entrance and in advance at the beginning of each term thereafter, for the twelve weeks, or the remainder thereof, unless monthly payments without discounts are preferred. In no case can contracts be made for board for less than a month, and no money can be returned for any departure before the end of the school month. For dates of termination of school months, see calendar.

16. If accounts cannot be paid in full, a note from patron for amount due at 6 per cent interest will be accepted with the approval of the Loan Fund Committee.

17. Music or other "extra" lessons missed through fault of teacher or school will be made up to the student. If missed through fault of student or on account of holidays or examinations, they will not be deducted from bill.

18. All complaints or requests of parents should be sent to the superintendent by separate letter and not in student's letter.

TAYLOR HALL

Suggestions to Parents

1 Give your children a chance in life by educating them. This may require a sacrifice on your part, but it will increase the happiness of your children through all their lives.

2. After they have been placed in school, give them to understand that they must sacrifice enough to remain there faithfully unless death or serious sickness prevents. Success always requires sacrifice.

3. Write at least once a week to your children and have them write to you not less frequently. Loving letters, firm when necessary, but always loving, are the inherent right of every child away from home.

4. If your child needs special care or attention in any respect, write to the superintendent about it. If the Institute can undertake to give this special attention, it should be begun early. If it cannot be given, you should know it.

5. Do not make unnecessary special requests, particularly about irregular entrance or departure. One great advantage of boarding school life is the lesson of regularity it inculcates, and this is utterly lost to those who receive special treatment.
